Start of work on a new heavy vehicle stopping bay on the Golden Highway at Cassilis from Monday 9 April

The NSW Government is providing $109 million funding, with an additional $24 million funding from the Australian Government, for a package of upgrades on the Golden Highway.

Roads and Maritime Services will be building a new stopping bay around one kilometre west of Willy Wally Road at Cassilis, approximately 30 kilometres west of Merriwa, for heavy vehicles travelling westbound on the Golden Highway. The stopping bay will include designated parking areas for up to five 30 metre long Super B-double vehicles, a sun shelter and bins. We have included a map to show the location of the stopping bay.

We will be working between 7am and 6pm from Monday to Friday and between 7am and 5pm on Saturday. Occasional work may be required between 7am and 5pm on Sunday. We expect to complete the project in eight weeks, weather permitting.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

During work hours the westbound lane will be closed with a 40km/h reduced speed limit and stop/Slow traffic control in place, and may affect travel times.

Outside of work hours, the westbound lane will remain closed. Alternating traffic flow with a reduced 60km/h speed limit will be in place on the eastbound lane.

Please keep to speed limits and follow the directions of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact our Project Manager, Jarred Kohler on 02 6580 3464 or jarred.kohler@rms.nsw.gov.au.
